

### Are you looking for an edge in your operation?

Here's an easy place to start.

Complement your common ground corn feed with the superior energy provided by **AmpliSource Max<sup>TM</sup>**, which is a greater source of crude protein, NDF, simple sugars, crude fat and ash. It improves the utilization of ground corn by delivering a consistent, finished high-energy blend to monogastric and ruminant animals every time. Make the switch, and start amplifying your advantage today.

#### AmpliSource Max<sup>TM</sup> (Candymal) Comparison to Ground Corn

	Ground Corn	Max Average	AmpliSource Max <sup>TM</sup> (Candymal)
Crude Protein	8.0		<b>12.55</b>
NDF	8.8		<b>18.12</b>
Starch	72.4		<b>10.86</b>
Simple Sugars (WSC)	6.3		<b>26.74</b>
Crude Fat	3.5		<b>15.75</b>
Ash	2.6		<b>5.79</b>
