

AmpliSource

AMPLIFYING EVERY ADVANTAGE

Are you looking for an edge in your operation?

Here's an easy place to start.

Swap the common ground corn feed for the superior energy provided by **AmpliSource Max**, which is a greater source of crude protein, NDF, simple sugars, crude fat and ash. It outperforms ground corn by delivering a consistent, finished high-energy blend to monogastric and ruminant animals every time. Make the switch, and start amplifying your advantage today.

AmpliSource Max (Candymeal) Comparison to Ground Corn

| | AmpliSource Max (Candymeal) | Ground Corn |
|---------------------|-----------------------------|-------------|
| Crude Protein | 14.35 | 8.0 |
| NDF | 27.45 | 8.8 |
| Starch | 12.45 | 72.4 |
| Simple Sugars (WSC) | 20.39 | 6.3 |
| Crude Fat | 14.42 | 3.5 |
| Ash | 4.8 | 2.6 |

**Based on a Dry Matter Basis*

| | AmpliSource Max (Candymeal) | Ground Corn |
|------------------------|-----------------------------|-------------|
| Max Price Per Ton | \$183 | \$214 |
| Grinding Costs Per Ton | — | \$23 |

**Based off of \$6 local corn*
